## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 7/6/04.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

## DETAILED ACTION

### *Drawings*

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application. See Draftsperson's Drawing Review attached to the office action mailed on June 24, 2003.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-2, 4 and 7-13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification does not describe how the virtual three-dimensional model is generated.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

As best understood, claims 1-2, 4 and 7-13 are rejected under 35 U.S.C. 102(b) as being anticipated by D'Urso (US 5,741,215).

D'Urso discloses a method of manufacturing a cranioplastic prosthesis or implant including the steps of generating a virtual 3-D model from two-dimensional coordinate sets to construct a three-dimensional coordinate set for a cranio-plastic implant 3 to be accommodated in a defect area 2 (Figs. 1, 2 and 7, col. 3, lines 55-63, col. 4, lines 5-67, col. 6, lines 29-67, col. 7, lines 1-67 and col. 8, lines 1-2).

Art Unit: 3732

D'Urso further discloses manipulation of the two-dimensional data to obtain the best or enhanced fit of "reference model object" or implant 3 in defect region 2 by superimposition and manufacture of the implant by stereolithographic modeling or "computer numeric control" based on data from the virtual implant model (col. 4, lines 57-59, col. 7, lines 35-67 and col. 8, lines 1-3).

The claimed method steps are inherently performed during manufacture of the D'Urso cranioplastic implant.

### *Response to Arguments*

Applicant's arguments submitted under "REMARKS" in the response filed on July 6, 2004 with respect to claims 1-2, 4 and 7-13 have been considered but are moot in view of the new ground(s) of rejection.

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
